SUMMARY

Results-driven recent graduate with strong communication, leadership, analytical, and problem-solving skills, dedicated to delivering impactful solutions. Demonstrates effective teamwork in dynamic software development environments, showcasing a fervor for continuous improvement and quick adaptation to emerging technologies.

EDUCATION

B.TECH   2019 - 2023
PACE INSTITUTION OF TECHNOLOGY AND SCIENCES   **7.71 CGPA**

TECHNICAL SKILLS

Front End Technologies: JavaScript(ES6), Html5, Css3, Bootstrap5, React

Back End Technologies: Node.js, Express.js, E.js
Database: Sql
Version Control: Git, GitHub
Designing Tools: Figma, Adobe Photoshop, Canva
Testing Tools / Frameworks: Postman, Jasmine
Development Tools: Vs code

PROJECTS

Interactive E-commerce Website   Link

- Developed a **multi-page E-commerce website** using HTML, CSS, and JavaScript, enabling a user-friendly and **interactive** shopping experience.
- **Integrated the Jasmine testing framework** to ensure code functionality and reliability throughout the development process.
- **Integrated an API backend** for product data retrieval, providing a **dynamic website.**
- Utilized the **MVC pattern** to structure the codebase for maintainability and scalability.
- Leveraged Git and GitHub for version control, collaboration, and project management.

Modern REST Blog API for Content Management   Link

- Developed a secure, **RESTful API** for efficient blog content management.
- Secure authentication with **OAuth2 integration** for Google sign-up and traditional signup to obtain API key for **authorization.**
- API key required for **CRUD operations** to ensure controlled access.
- **Password reset** via one-time password (OTP) sent to registered email.
- CRUD functionality for blog posts, comments, likes, and categories.
- Follows **MVC pattern** for structured, scalable codebase.
- Designed with **RESTful principles** for clean, intuitive API.
- **Tech Stacks**: Node.js, Express.js, PostgreSQL, EJS, Git, CSS

CERTIFICATIONS & AWARDS

- Completed the HTML5 and CSS3 certification program by Simpli Learn, affirming proficiency in front-end web development.
- Achieved a Cisco JavaScript certification, validating expertise in interactive web scripting through a test.
- Received recognition from the District Collector for outstanding contributions during a seminar addressing the critical issue of Black Money.
